SUMMARY

Computer Engineering student at I2IT Pune with a strong foundation in software development, AI/ML, and entrepreneurial thinking. Experienced in building full-stack applications and AI-integrated tools, leading hackathon teams, and driving business development as a core E-Cell member. Passionate about bridging technology and business to solve real-world problems. Seeking roles in product development, business strategy, or growth-oriented tech.

EDUCATION

B.E in Computer Engineering — *International Institute of Information Technology (I2IT), Pune* Expected: May 2027

- **GPA**: 9.15/10
- **Relevant courses**: Python for problem solving 1, Python for problem solving 2, Agentic AI Bootcamp, Java Add On, Business Analytics Workshop IIT Bombay

PROFESSIONAL EXPERIENCE

ML Developer Intern | Borderless *World Foundation* Feb 2026 – May 2026

- Built an expense tracker and predictor application using Scikit-learn and Linear Regression to forecast upcoming monthly expenses using the data of 5 Homes and 500+ students.
- Designed end-to-end ML pipeline covering data preprocessing, model training, and prediction output.

ACTIVITIES & LEADERSHIP

Core Member – Entrepreneurship Cell (E-Cell) | *I2IT, Pune* Oct 2024 – Present

- Organized and facilitated workshops on business, finance, and entrepreneurship for student founders.
- Mentored student teams through idea validation, pitch development, and campus startup competition preparation.
- Contributed to strategic planning and execution of E-Cell events, growing participation across departments.

Hackathon Participant – Navdhara State-Level Hackathon | *PCCOER, Ravet* Apr 2024

- Built **HACK'O** — a regional event and course recommendation website using WordPress with a 6-member team.
- Project ranked among top showcases; strengthened skills in rapid prototyping and collaborative delivery.

PROJECTS

CollegeCompass – College Discovery Platform — Next.js, React19, Tailwind CSS 4, TypeScript, PostgreSQL, Prisma ORM

- Search and filter colleges by category, location, and name with a database of around **50**+ colleges.
- View comprehensive college data, including descriptions, established year, and available facilities. **JWT based authentication** stored in **HTTP Only** cookies. Application deployed on **vercel** and PostgreSQL database on **Neon**.

Quasars – AI-Integrated Productivity Desktop App — Python, Tkinter

- Built a task management app with AI features including speech recognition, speech to text conversion and automated reminders.
- Designed full UI/UX end-to-end.

SKILLS

Languages & AI/ML: Python, MongoDB, Java, C++, Scikit-learn, Linear Regression, TypeScript, React.js, Next.js, Express.js, LangChain, LangGraph, LLMs, Agentic AI

Tools & Platforms: VS Code, Jupyter Notebook, MS Excel, PowerPoint, Claude, Antigravity, Neon, GitHub, Salesforce

Business & Soft Skills: Market Research, Pitch Deck Creation, Strategic Planning, Leadership, Communication, Adaptability, Ethical Awareness, Model Understanding

CERTIFICATIONS & ACHIEVEMENTS

- **Python for Problem Solving** — CodeChef
- **Java Add-On Certificate** — I2IT Pune
- **Navdhara State-Level Project Competition** — PCCOER Ravet
- **Smart India Hackathon (SIH)** — Participant
