- Tools & Platforms: VS Code, Jupyter Notebook, Figma, MS Excel, PowerPoint, WS Filmora
- Business & Strategy: Market Research, Business Development, Pitch Deck Creation, Strategic Planning
- Soft Skills: Leadership, Team Collaboration, Communication, Problem Solving, Adaptability

Education

B. Tech in Computer Engineering — Expected Graduation
International Institute of Information Technology (I2IT) – [Pune] — [May, 2027]

Experience

- **Core Member – Entrepreneurship Cell**
  I2IT, [Pune] — [Oct 2024] to Present
  - Organized and led workshops on business and finance for student entrepreneurs.
  - Mentored student teams in idea validation and pitch development for campus startup competitions

- **Hackathon Participant – Navdhara Hackathon**
  Pimpri Chinchwad College of Engineering, Ravet — April 2024
  - Built "HACK'O" – a regional event and course recommendation website using WordPress.
  - Collaborated with a 6-member team; project ranked among top showcases.

Projects

HACK'O – Event Discovery & Learning Recommendation Platform

- Developed a web-based platform to help users discover ongoing/upcoming tech events based on their region.
- Integrated course recommendation system to help users upskill for relevant events.
- Worked collaboratively with a 5-member team under time constraints during a hackathon.

Quasars (AI-Integrated Productivity Desktop App)

- Developed using Python and Tkinter with AI features for task management
- Designed intuitive UI/UX and currently working to convert the app into a mobile version
- Incorporated speech recognition and automated reminders

Assured Contract Farming System

- Designed a digital platform to provide stable market access to farmers through assured contracts
- Implemented features to reduce middlemen interference and ensure fair pricing
- Focused on scalable backend structure and a user-friendly frontend

Certificates

- Business Analytics Workshop [IIT Bombay]
- Python For Problem Solving [By CodeChef]
- JAVA Addon Certificate [I2IT Pune]
- AR/VR Bootcamp [I2IT Pune]
- Navdhara State Level Project Competition [PCCOER Ravet]
- Smart India Hackathon [SIH]
